

JOB OPENING

Program Manager - Job ID# H002

Company: Teledyne Energy Systems, Inc.
Location: Hunt Valley, Maryland
Status Type: Full Time
Clearance: Yes
Work Week: Monday – Friday

Education & Experience:

BS or MS in mechanical engineering or equivalent. Requires 15 years experience that includes power and energy conversion systems, with strong preference for one or more of the following; PEM fuel cells, electrochemistry, small combustion systems, thermoelectric and Stirling conversion technology. Successful candidate must be hardware oriented and have demonstrated program leadership skills, with at least 5 years experience leading engineering teams. Ability to work at both concept development level and detailed product design is needed. Excellent communication skills required, encompassing direct customer interaction, proposal/report writing and presentation skill. Successful candidate must be able to demonstrate self-motivation and good problem solving skills. Must be a US citizen. Must be able to travel and obtain a security clearance.

U.S. Citizenship required for government clearance and or data/software access

Work Description:

Provide strategic and day to day leadership of multi-year development programs, responsible for delivering on quality, cost and schedule to exceed customer expectations. This will include: 1) understanding and translating requirements into a program plan, 2) communicating that plan to team members and customer 3) managing the customer relationship and reporting program status to company management, 4) lead technical efforts and directing expert staff to insure quality of product and 5) preparing detailed schedule and manpower plans that can be integrated into the overall group staffing plans. This will also include opportunities to contribute to and lead advanced technology tasks in new business areas, developing proposal and working with potential customers to bring in new programs.
