## JOB OPENING

### Project Scheduler- Job ID# T006 (Part Time)

Company: Teledyne Energy Systems, Inc.  
Location: Sparks, Maryland  
Status Type: Part Time  
Clearance: Yes  
Work Week: Approx. 20 hours per week with ability to work flexible schedule.

#### Education & Experience:

AA/AS plus 5 years relevant experience in a project/program management environment with scheduling shared resources in support of a large number of technical projects is required. Must have experience with the use of project scheduling and labor planning tools (e.g. Primavera Project Planner, MS Project software or similar). Solid understanding of scheduling principles and good written and verbal communication skills are required. Formal training (e.g. PMI certification) is highly desirable as is experience in budgeting and Earned Value Analysis. Requires the ability to work independently.

**U.S. Citizenship with ability to attain government clearance upon hired required**

#### Work Description:

Perform planning, scheduling and monitoring for 30 to 40 simultaneous projects which utilize shared labor resources. Use appropriate tools to establish and maintain program/project baseline and interim schedules to include activity, cost and resource planning and control. Interface with Program Engineering, Procurement, Quality and Manufacturing to obtain planning requirements and secure/verify requisite information. Analyze labor/cost data plus management inputs and provide near, medium and long term schedules subject to continuous (weekly or monthly) updates. Predict turn around times for new projects and impact on existing schedules to add new projects (what if scenarios). Participate as required on bid and proposal assignments.

**For consideration send resume and salary history, noting position desired, to:**
